

CALLS OF THE EUROPEAN COMMISSION

Joint Research Center (JRC)

"Open access to JRC research infrastructures"

The Joint Research Center of the European Commission (JRC) has opened access to its infrastructures by announcing calls for research on the basis of:

Laboratory of the Environmental & Mechanical Materials Assessment (EMMA) (Petten, the Netherlands)

This infrastructure includes four laboratories that will provide mechanical testing in environmental and corrosive media from cryogenic to high temperatures at micro and macroscales. Scientists will be able to investigate mechanical and corrosive properties of materials, to characterize them and work on safer nuclear reactor infrastructure.

- [AMALIA, assessment of nuclear power plants core internals](#)
- [LILLA, Liquid Lead Laboratory](#)
- [SMPA, Structural Materials Performance Assessment Laboratories](#)
- [MCL, Micro-Characterisation Laboratory](#)

Application deadline: October 15, 2020

Reimbursement of costs: access to the best EU research laboratories with refunding of transfer and accommodation.

The following are invited to participate:

- Higher education institutions;
- Research institutes;
- Small and medium enterprises with engineering experience in nuclear infrastructure facilities.
