

SNETP Forum 2021

*Towards innovative R&D
in civil nuclear fission*

**2-4 February 2021
Rome, Italy**

FORUM TECHNICAL SESSIONS:

Small Modular Reactors (SMRs)

Long term operation and construction

Fuel development and fuel cycle efficiency

Innovative and perspective materials solutions

Energy Systems, new applications, economy, licensing

Decommissioning and waste treatment

Advanced reactor systems

Digitalisation – Modelling & Simulation

- **Presentation of new collaborative projects for each of these topics**
- **Call «Young Generation Award Challenge»**
- **Meetings with representatives of NUGENIA, EERA-JPNM, NC2I**

To participate you must pay a registration fee.
